Teachers' mentoring and assistance to students to avail of self-study courses through, practical Sessional Work is linked with development of teaching aids. SMRS emphasizes the use of internet, use of library links through its own websites, N-list and INFLIBNET by the faculty as well as Students in the teaching and learning processes. Most of the faculty is trained in power point presentation in value-aided lecture delivery. Our Students are ever encouraged to prepare lessons using ICT in teaching-learning processes at school level as well as in the college. Smart classrooms and multimedia facilities are available for the Students. SMRS is providing well-equipped technology & computer lab facility (with appropriate working hours as provided in the time table). Besides, Students are encouraged to prepare their lesson plans using ICT; they are also encouraged to use electronic teaching-aids during their teaching practice to make their lessons more effective & communicative. Teaching skills are taught by the faculty through PPT presentations. Project based learning, Video based, YouTube links, Slideshares, Whatsapp, Telegram, for mentoring to the Students Self Study.

SMRS fulfills the required necessities faced by the Students and the faculty every year by considering the proposals and suggestions put forward by the various committees and cells. SMRS is enhancing the new technologies and facilities according to the requirement for academic growth. Faculty and Students are using gadgets for simulated teaching, micro teaching and lesson planning to keep pace with the academic growth. Besides there, faculty frequently use Power- point, various multi-media, transparencies and other innovative methods to make the teaching and learning process more effective. Seminar & Multipurpose are well equipped with fairly good sound system. SMRS is always in a continuous process to update the library with new books and journals, Psychology resource centre, Language resource centre, Science/ Math resource centre and Computer lab with equipments according to the requirement of students and the faculty.
